our services

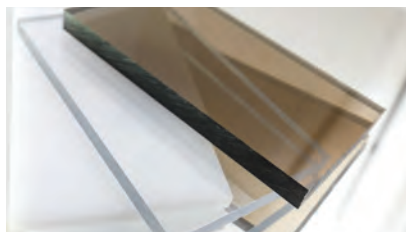

Design, Fabricate, Install, Maintain

For over 20 years, local, regional and national corporations have relied on OnSight to execute dynamic interior and exterior sign programs from design to installation. You can count on our attention to detail to protect brand standards and our sign expertise to achieve your goals.

Weekend Directional Service

Often cited by our clients as the most effective means of attracting weekend customer traffic, directional signs are a cost-effective service designed to increase sales and build brand awareness.

With electronic route maps, weekly sign loss report, and Saturday morning route inspections, OnSight strives to provide a weekend directional service that is consistent, effective and professional while working within the parameters of local county ordinances.

Human Directionals

Human Directional service offers many of the same brand-building and customer traffic-generating benefits of the weekend directional sign program yet is typically less prone to county ordinance restrictions.

All OnSight HDs are interviewed and hired directly – no temporary staffing agencies are utilized.

First Impression Maintenance Program

First impressions are lasting impressions. Through scheduled once-a-month visits, OnSight's Maintenance Program helps to ensure that a positive first impression is achieved every time a customer visits your new home community.

From touching up paint on critical signs around the Model Center to replacing tattered flags and lot markers, OnSight's maintenance technicians have a keen eye for detail and will ensure that your community is looking its best.

Warehouse / Inventory

OnSight maintains full storage and inventory capabilities to better serve our clients.

From inventorying a bulk purchase of flags, floor mats, or Sold/Available signs for on-demand distribution, to warehousing a topographic table or modular workstation for future reuse, OnSight has the storage capacity to help our clients lower costs and improve project execution.

Color Managed Workflow

Utilizing the Eye-One iO color management platform by X-Rite as the backbone of our digital workflow, OnSight understands the importance of hitting specific Pantones and maintaining color consistency across media types and printing technologies. Rest assured that we will be trusted stewards of your brand by ensuring that quality and color standards are upheld with the highest regard.

sales center DESIGN & DISPLAY

Working in tandem with the fabrication department, our team of professional designers execute unique and impactful concepts while maximizing client budgets through the recommendation of cost-effective materials and finishes.

a cohesive sales center
begins with effective
design & layout

custom MILLWORK

cabinets & TOPO TABLES

We employ master craftsmen and woodworking specialists that can custom tailor unique displays specific to your needs and/or concept. By choosing OnSight, you are buying direct with no middleman markup.

acrylic

Ideal for high-traffic interior areas because of their higher-end look.

OnSight's Acrylic wall displays can be utilized to tastefully showcase vibrant photographs, corporate messaging special features and much more. Combined with several methods of installation acrylic displays will make your brand stand out.

interior LETTERING

etched glass VINYL

window & wall GRAPHICS

channel LETTERING

Channel Letters add depth and dimension to storefronts, entry walls or interior space. Improve brand awareness, help generate a positive first impression or make a bold and daring statement piece.

exterior LETTERING

Ideally suited for the façade of your building, exterior feature or existing monument, lettering can be customized using a variety of material finishes and thicknesses to accommodate nearly any budget.

sales & model CENTER

Model Center Signs and exterior packages most commonly showcase the builder's brand to new homebuyers and set the stage for a positive viewing experience. Model Center Signs are frequently more ornate because they are viewed up close and often help form the customer's first impressions of the community and builder.

real ESTATE

The most cost-effective form of outdoor advertising per impression, adding value 24 hours a day, 7 days a week. Use to market a new home community, advertise a leasing special, help people locate a development or simply build brand equity in the local community.

wayfinding SIGNAGE

Whether your goal is to help students navigate a school's campus, assist patients locate a department in a hospital or direct customers through a parking lot, OnSight develops effective directional sign programs.

amenity SIGNAGE

cluster MAILBOXES

Cluster mailboxes come in many styles, colors and configurations to accommodate a wide range of budgets. They are an efficient alternative to traditional stand-alone mailbox units, elevated with tapered top-caps, decorative finials, bases, and roofs. OnSight can even pour your concrete pads and coordinate addressing with the post office.
